

CNOC PRECONFERENCE WORKSHOP | SUNDAY, AUGUST 27, 2023

~ times and talent subject to change ~

CNOC: Neurodevelopment at Key Transitions - Risks and Opportunities

8:00 AM-10:30 AM ET | Moderators: Kelly Wolfe and Renee Sananes

143ABC

- 08:00-08:05 Risks and Opportunities: Neurodevelopment at Key Transition Points
Renee Sananes | Canada
- 08:05-08:15 Parent Perspective on Perioperative Transitions
Parent TBA
- 08:15-08:30 Key Transitions in the Perioperative Period, Birth to Discharge
Jennifer Butcher | USA
- 08:30-08:45 Benefits and Bias in Neurodevelopmental Evaluation for Children with CHD
Michael Puchalski | USA
- 08:45-09:00 Parent Perspective on the Preschool Years
Ashleigh Schambach | USA
- 09:00-09:20 Key Transitions in the Preschool Age Child - Explosive Growth and Shifting Expectations | Jacqueline Sanz | USA
- 09:20-09:30 Patient/Parent Perspective on the Teenage/Transition Years
Parent/Patient TBA
- 09:30-09:45 Key Transitions in Adolescence - Shifting Towards Independence
Dawn Ilardi | USA
- 09:45-09:55 Patient Perspective on Adulthood
Patient TBA
- 09:55-10:10 Key Transitions and Challenges in Adulthood
Ariane Marelli | Canada
- 10:10-10:30 Discussion

CNOC: Redefining Neuroprotection and Intervention Across the Lifespan in CHD

10:30 AM-12:30 PM ET | Moderators: Adam Cassidy and J. William Gaynor

143ABC

- 10:30-10:45 Introduction: Thinking Beyond Operative Factors for Neuroprotection
Adam Cassidy | USA
- 10:45-11:00 Neuroprotection in the Presurgical Period in Children with CHD
Daniel Licht | USA
- 11:00-11:15 Neuroprotection in the Post-Operative Period in Children with CHD
Lara Shekerdemian | USA
- 11:15-11:30 Neurodevelopmental and family intervention in Infancy and Early Childhood in Children with CHD | Frank Casey | UK
- 11:30-11:45 Neuropsychological and Psychological Interventions in School Age Children with CHD | Jacqueline Sanz | USA

- 11:45-12:00 Interventions for Adolescents and Adults with CHD
Adrienne Kovacs | Canada
- 12:00-12:15 Interventions to Reduce the Impacts of Health Disparities in
Neurodevelopmental Care in CHD | Keila Lopez | USA
- 12:15-12:30 Discussion

CNOC: Debates in Cardiac Neurodevelopment

1:30 PM-3:30 PM ET | Moderators: Caren Goldberg and Justin Elhoff

143ABC

- 13:30-13:45 Debate 1: Neurodevelopmental Disorders in CHD Cannot be Bodified by
Interventions
J. William Gaynor | USA
- 13:45-14:00 Debate 1: Neurodevelopmental Disorders in CHD Can be Modified by
Interventions | Thomas Miller | USA
- 14:00-14:15 Debate 2: All Children and Families with CHD Should See the
Neurodevelopmental Team | Nicola Doherty | UK
- 14:15-14:30 Debate 2: Children and Families with CHD Should Be Triageed Before Visiting
the Neurodevelopmental Team | Stephanie Cox | USA
- 14:30-14:45 Debate 3: Neuroimaging Should be a Standard Part of Clinical Care in CHD
Steven Miller | Canada
- 14:45-15:00 Debate 3: Neuroimaging is Most Informative to Research Questions
Ashok Panigrahy | USA
- 15:00-15:15 Debate 4: The ICU Should Be Structured with All Cardiac Patients on One
Team to Maximize ND Outcomes in Individuals with CHD
Bradley Marino | USA
- 15:15-15:30 Debate 4: The ICU should Be Structured with Segmented ICU Model Based on
Age to Maximize ND Outcomes in Individuals with CHD
Sherrill Caprarola | USA
