

EXHIBITS & SPONSORSHIP

Our Mission

The Mission of the Cardiac Neurodevelopmental Outcome Collaborative is to determine and implement best practices of neurodevelopmental services for every individual with pediatric and congenital heart disease and their families through clinical, quality improvement, and research initiatives.

14th Annual Scientific Sessions

CNOC 2026: Riverfront Reflections: Bridging Research, Advocacy, and Care in Cardiac Neurodevelopment

Dates: September 16 – 18, 2026

Location: Chase Center on the Riverfront | Wilmington, DE

Exhibit & Sponsorship Info: <https://cardiacneuro.org/sponsorship/>

Throughout this year's meeting, we will hear from leaders in the field of cardiac neurodevelopment as we explore cutting-edge science, clinical approaches, quality improvement, and advocacy opportunities from around the globe. We are excited to present a diverse program of multidisciplinary faculty experts who are invested in the care of children and adults with congenital heart disease and their families, with a focus on improving neurodevelopmental, psychological, and social outcomes.

Attendees include a highly engaged group of multidisciplinary professionals—cardiologists, psychologists, neurologists, nurses, therapists, educators, and families—who are all focused on improving neurodevelopmental and psychosocial outcomes for children with congenital heart disease.

We expect 250-300 in person attendees and 100-150 virtual attendees.

Advocacy in Action: Building a National Voice for Cardiac Neurodevelopmental Care

This interactive pre-conference workshop will bring together providers, researchers, and families to align around a shared advocacy agenda for CHD, with a focus on neurodevelopmental outcomes. Hosted by Every 100th Heart in partnership with CNOC, the session will explore how clinical research, patient experience, and federal policy intersect to shape outcomes for CHD patients. Participants will engage in small-group discussions to identify policy priorities, explore strategies to grow the CHD advocacy

network, and develop actionable ideas to advance both CNOC and broader CHD advocacy efforts. The workshop will conclude with a collective prioritization exercise and clear pathways for ongoing engagement, including future participation in the National CHD Advocacy Summit.
